**Final Mosquito
Fogging Scheduled**

The Village of Versailles is scheduled to be fogged for mosquitoes on Wednesday, August 19th beginning at 10pm. The fogging should be completed by 12am. Residents with respiratory problems are encouraged to stay indoors and take other necessary precautions until the fog dissipates. In case of inclement weather (rain, fog, wind) on the evenings of August 19th, the fogging will be rescheduled to begin at 10pm the following night.

2026– 2027 HEAP Applications Available

The Home Energy Assistance Program (HEAP) is a federally funded program administered by the Ohio Development Services Agency's Office of Community Assistance (OCA). It is designed to help eligible low-income Ohioans meet the high costs of home heating. If you are eligible for assistance, the amount of your one-time HEAP benefit will depend on federal funding levels, how many people live with you, total household income, and the primary fuel you use to heat your home. In most cases, the one-time benefit will be a credit applied to your energy bill by your utility company (or fuel vendor). Stop by the Utility Office to pick up a copy of the application. For additional questions about the HEAP program call 1-800-282-0880 during regular business hours (7:00 a.m. to 5:00 p.m.) Monday through Friday.

Greenlawn Cemetery Columbarium

The Greenlawn Cemetery is pleased to announce the addition of a new columbarium at the cemetery, providing families with a beautiful and dignified option for the permanent placement of cremated remains. A columbarium is a structure containing individual niches designed to hold cremation urns. It offers families a lasting place to visit, reflect, and honor the memory of loved ones in a peaceful cemetery setting. Cemetery records and fees can be found on the Villages web-site.

Efficiency Smart has two programs that are currently underway:

1.) Appliance Recycling Rewards

Earn money for responsibly recycling your old appliances.

Through September 30, residential electric customers can schedule a free pickup of a working refrigerator, freezer, dehumidifier, or window air conditioner and receive \$75 per unit recycled. There is a limit of four appliances per household, per year.

2.) Home Energy Rebates

Get money back on energy-efficient products and appliances.

Upgrading to energy-saving products has many benefits, including reducing your energy use, increasing home comfort, and cutting down on your electricity costs year after year. Efficiency Smart's rebates help you save even more.

Customers of Village of Versailles Utilities are eligible for cash back on qualifying energy-efficient products. The rebates are available to individual homeowners or renters. They are good while funds are available, and may be subject to change without prior notice. Developers and landlords interested in receiving project rebates should contact Efficiency Smart.

Sidewalk, Curb, and Driveway Permits Reminder

The Village of Versailles requires anyone making repairs to or pouring of new sidewalks, driveway approaches, curb, or gutter in public right-of-way to complete a permit application prior to performing any such work.

The purpose of these permits is to allow for monitoring of the quality of work that is being completed when repairs and improvements are made in addition to keeping a written record of such work. There is no fee for the permit. The Village has specifications regarding concrete thickness, width, and composition of the concrete used for these repairs and/or improvements.

The permit application will need to be completed by the property owner or contractor and submitted to the Village Administrative Office. Work may begin once the application form is returned by the Village Inspector to the applicant. Once the forms are inspected and signed off on by the Village Inspector, the application becomes the permit.

A final inspection will be performed by the Village Inspector after the pour to inspect the finished product. Once the final inspection is approved, the permit will be closed and filed at the Village Administrative Office. Failure to file for a permit or schedule the appropriate inspections may result in any concrete work performed being removed and reconstructed at the owner and/or contractor's expense.
